NATURAL ASPHALT ROOFING.

ANCHOR BRAND.

An outgrowth of over thirty-five years' experience in felt and gravel roofing, in both warm and cold climates, embracing about twenty-eight years in New England and Canada.

TRADE MARK.

The chief advantage of this Roofing consists in its ***great durability.*** This is due to the ***remarkable fact*** that the ***Natural Asphalt materials are not injuriously affected by atmospheric agencies;*** especially, that they ***will not dry up and become brittle,*** like coal tar materials, ***by evaporation.***

This Roofing is already in extensive use on a large number of the most costly and elegant mercantile buildings, dwellings, manufactories, railroad buildings, etc., many of which are of great value and of enormous dimensions; an aggregate of several millions of square feet of it having been laid within the last six years. We select the following from our numerous

CHANGES, ETC. IN THE BOSTON DIRECTORY.

*Number of Names in Directory of 1882 (*exclusive of died and removed*)	155,426
Names in Directory of 1881	150,493
Increase	4,933
Names added	36,064
Names erased	31,131
Changes in location, etc.	58,065
Number of changes made in preparing General Directory	125,260

*In addition to this number the Directory contains the names of 981 who have died or removed from the city since the Directory of 1881 was issued, with date of death, etc.

By comparing these figures it is seen that there are 125,260 alterations in a total of the 150,493 names that composed the Directory of 1881, or more than 83 per cent, showing that a last year's Directory is now practically worthless for reference.

COLUMBIA BICYCLE.

AN ELEGANT MOUNT.

To *ride*, or not to ride, that is the question,
Whether it is nobler in the man to suffer
The pains and bothers of pedestrian travel,
Or to take wheel against the surge of horses,
And by bicycling, leave them! to mount, to ride,
Ay, more: and by a ride, to find we end
The headache and the thousand ills
That flesh is heir to, 'tis a recreation
Devoutly to be wished.

This modern vehicle has brought health and vigor to many a pale-faced student, and has enlisted enthusiastic description and recommendation from physicians, lawyers, clergymen, artists, merchants, editors and literary men, and from men in every avocation in life. Many find their only exercise in a morning run or evening spin on the bicycle; or, perhaps, an occasional holiday excursion. To them the country within a radius of fifty miles around becomes an El Dorado. But for the summer vacation, by the seashore or at the mountains, around the lakes or down the valleys—wherever one may choose to go—the bicycle bears the wheelman, free as a bird and jolly as a boatman, through all the beauties and diversities of natural scenery. It is the land yacht, the canoe of the overland highways.

THE COLUMBIA BICYCLES

have earned the foremost popularity of any in the world. Thousands of them are already in use in this country, and their perfect wheels spin over the country roads of every country to which modern commerce extends. The finest implement of gun manufacture does not excel in mechanical finish and scientific accuracy the fine bicycles of this largest and best-appointed Bicycle Manufactory in the world.

The object of the work is to commemorate the 250th anniversary of the founding of Boston, in 1630. It has been assigned to writers, who, from study and associations, are identified with their subjects.

The plan of the work is to a large extent novel—the grouping of so many representative writers, to tell so interesting a story as that of Boston's origin, career, and significance, is a fit conjunction for the occasion, and hardly to be paralleled in the history of any city.

No more suitable or enduring *memorial* of Boston can be conceived than to embody in book form its wonderful and interesting history. It is complete in four volumes, quarto, about 7 1-2 by 11 inches, 650 or more pages to each volume, fully illustrated with historical maps, fac-similes, portraits, views, &c.
